

# MASTER CLASS: “Light sculptures with paper porcelain”

with **PATTY WOUTERS**

<https://www.pattywouters.be>

During this master class we will investigate the possibilities of paper porcelain, which we will make ourselves.

We will experiment with different techniques: slab building, using moulds, liquid paper porcelain, using metal and/or wooden armatures, using organic materials dipped in paper porcelain to create light sculptures, ...

First we will design and create a few smaller objects and prototypes. After critical discussions we will make our own unique light sculpture in paper/flax porcelain.
